What’s your vision of the future?

The future of agriculture in Australia requires aspiring young minds.

AgVision is an innovative career-focused event which is the largest student agri-careers expo to be held in NSW in 2014.

AgVision workshops provide an insight into agricultural industries including: agricultural science and engineering, animal, veterinary and wine sciences, state-of-the-art technologies, fisheries, forestry and agri-business including finance, marketing, management and communication.

Cultivating Careers in Agriculture

Sandra Heffernan or Debbie Pickles
Junee High School - Phone: (02) 6924 1666

Junee High School thanks the sponsors of AgVision 2014 for their generous support

Thank you!
The AgVision Expo is...
a biennial Agricultural Careers Day dedicated to inspire and inform Years 9-10 students of the range of careers available in agriculture, science and agri-business.

Students will discover...
the different career opportunities which exist in this sector from industry experts. AgVision brings together industry, schools and communities.

Over 320 students attended AgVision 2012. It is anticipated that 450 students from regional, metropolitan and interstate schools will attend in 2014.

“AgVision 2014 will...
- Showcase a diverse range of rural-oriented career pathways and study patterns
- Engage students to experience first-hand agricultural trades, business and services in a practical learning environment
- Students select to attend 6 of the 45 practical workshops on offer
- Raise awareness of School-based Apprenticeships and Traineeships.

“I was really impressed! AgVision was an absolutely fabulous day providing a positive outlook on the agricultural industry.”

Allan McMillan (2012)
Agricultural Teacher, Wagga Wagga High School

“Our AgVision Expo brings students to one place consolidating information about what it is like studying agri-related career pathways.”

Matthew Brown (2012)
Principal, Junee High School
